EXPERIENCE

Frontend Developer

Chamak Saathi

06/2023 - 06/2024 Gurugram, Haryana

- Engineered** responsive designs by applying modern CSS techniques and responsive design principles, resulting in fully functional and visually appealing websites across various devices and screen sizes.
- Constructed** a modular, reusable, and maintainable code structure using React.js, adhering to best practices for component-based architecture.
- Executed** dynamic routing with React Router, facilitating smooth navigation between different sections of the website and enhancing user experience and engagement.
- Leveraged** React's state and Context API to manage complex state across the application, ensuring data consistency and boosting performance.
- Designed and implemented** a secure login system for user authentication and authorization, ensuring a seamless and secure booking process.
- Developed** a dynamic service booking system that enables users to specify various details for different services, enhancing customization and user experience.
- Created** a subscription management interface featuring multiple plan options, simplifying the selection and management of subscriptions for users.
- Crafted** interactive forms for user input on contact and booking pages, employing form validation techniques to ensure data integrity and provide immediate user feedback.
